## About Me:

I hold a Bachelor's in Web Design and a Certification in Front-End Development. My skills include HTML, CSS, JavaScript, and responsive design. I bring a unique blend of creativity and technical expertise to the table.

## Work Experience:

### Freelance Web Developer – Self Employed – 2006–Present

- Design and develop responsive web applications using HTML, CSS, and JavaScript
- Design and develop custom UI components, layouts, and interfaces that meet clients' specific needs
- Optimize web applications for maximum performance and scalability
- Optimize website performance, ensuring fast loading times, scalability, and mobile compatibility
- Write clean, efficient, and well-documented code

### Freelance Graphic Designer – Self Employed – 2006–Present

- Design high-quality visual content for clients, including logos, graphics, infographics, and social media assets
- Develop and implement effective brand identities for clients, including color schemes, typography, and overall visual style
- Create engaging marketing materials, such as brochures, flyers, posters, and business cards
- Work closely with clients to understand their design needs and preferences, and deliver customized solutions
- Proficiency in Adobe Creative Suite, specifically Photoshop, Illustrator, and InDesign, with the ability to work independently and manage projects from start to finish.
